KENTUCKY REPUBLICAN PLATFORM.

Adopted at Louisville, Aug. 20th, 1897.
Resolved, by the Republican party in Convention assembled—
First—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1896.
Second—That we indorse the Republican National and State Administrations, and especially commend the action of our present state officials in their efforts to suppress mob violence and to preserve the financial credit of the state.
Third—We commend the action of the representatives of the Republican party in the passage of a Tariff Bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the National credit.
Fourth—We are opposed to a system of Civil Service that builds up an official class with practically a life tenure in almost all branches of the public service, and we demand that the Civil Service Law be modified so as to limit the terms of service to four years, with the privilege of reappointment or promotion, subject to such restrictions as will secure competent officials and give to every section of the country its proper proportion of them.
Fifth—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.
Sixth—That we recommend to the people the adoption of the Constitutional amendment submitted by the last Legislature, allowing all cities and towns the privilege of regulating under legislative supervision the method of levying the taxes they impose on themselves for city and town expenses.
Seventh—We favor the passage of a law that will protect the laborers of Kentucky from the competition of convict labor, and, if necessary to accomplish said result, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.

Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

WHY don't some of you Free-silver fellows trot out your last fall's argument that the price of wheat is regulated solely by the price of silver?

ONE Mason county farmer called the other day and paid a year's subscription to THE LEDGER; and still there are those who say times are no better.

THOMAS ARLINGTON, in charge of the Washington Division of Postoffice Inspectors, was arrested at the National Capital for embezzlement. Thought it was impossible for thieves to break into the public service under the glorious Civil Service fraud.

"When the farmers have money they buy goods. Thus the farmers are not merely the advance agents of prosperity but the real show itself."—New York World.
Well the farmers are getting some money and are coming in for a full share of prosperity.

This is such a community of "kickers" that THE LEDGER has set apart a corner where every one is invited to register his or her particular "kick." Remember, however, that your name must accompany your "kick," although it will not be published unless by your consent. Now, let's have a kick along the entire line.

A good citizen of Germantown, who had never heard of Colonel William Kirkby, President of this section of the Black Diamond Railway, very properly wrote to the Cashier of a Bank in Toledo, and what the Bank Officer told him was a plenty. He is now satisfied that Colonel Kirkby is a man of high standing, perfectly responsible for all he says and does.

CIVIL SERVICE FRAUD.

Slim Chances For a Republican to Get an Office.

WHAT'S USE OF PARTY WORK?

Lexington Leader.
If a person passes creditably the Civil Service examinations, what then is that person's chance of receiving an appointment?

From a pamphlet issued recently by the Civil Service Commission the following statements are taken, and are given here for the study of those who hope to secure office through the long way set them by the present reformers of this Nation's employees.

This pamphlet gives a table showing the number examined, the number passing the examinations, and the number appointed during the fiscal years ended June 30th, 1894, June 30th, 1895, and June 30th, 1896, in the Departments at Washington.

Here are some of the branches of service, with facts of interest as to them:

Clerk Copyist: 1894—Examined, male 1,247, female 533; passed, male 963, female 425; appointed, male 42, female 5. In 1895—Examined, male 605, female 217; passed, male 387, female 149; appointed, male 21, female 1. In 1896—Examined, male 319, female 101; passed, male 183, female 71; appointed, male 28, female 2.
For State Department Clerk, during three years no appointment has been made from the register of the Civil Service Commission, although 26 were examined and 13 passed.
Law Clerk—Examined 20, passed 15, appointed none.
Typewriting—Examined 803, passed 515, appointed 45.
Stenography—Examined 704, passed 271, appointed 104.
Modern Languages—Examined 64, passed 36, appointed 4.
Assistant Examiner, Patent Office—Examined 533, passed 170, appointed 57.
Messenger Boys—Examined 71, passed 39, appointed 12.
Proof Reading—Examined 21, passed 9, appointed none.
Bookkeeping—Examined 405, passed 179, appointed 21.
Railway Mail Clerk—Examined 13,839, passed 6,236, appointed 1,974.
Topographic Draftsman—Examined 78, passed 8, appointed 1.
Mechanical Draftsman—Examined 23, passed 8, appointed 1.

There are other places for which examinations are held, such as those in the Indian service, and some technical ones.

But in all of them the number appointed is far below that of those who pass. It must be remembered that many are listed as passing who fail to do more than merely escape failure. When appointments are made only those applicants are certified who stand in the first three. Those whose grades are not somewhere above 85 have almost no chance of consideration. Indeed, unless the applicant's grade is 90 or over the probability of certification is slim.

In the Department service Kentucky is entitled to 59 appointments. June 30th, 1896, Kentucky was credited with only 49. Each state, territory and the District of Columbia are entitled to appointments pro-rated on a basis of population.

In stenography and typewriting the eligibles barely reach the demand. In these males are preferred to females.

Any person expecting to stand for a position in the classified service should determine carefully that branch for which he or she is especially fitted, and then ascertain the probability of an appointment.

MAIL SERVICE

Circular Relative to the Enforcement of the Chinese Exclusion Laws

Issued to Collectors and Customs Officers and United States Attorneys and Marshals—Competition of Architects in the Design of Public Buildings.

WASHINGTON, Aug. 31.—Secretary Gage has made the first experiment with the Tarsney law providing for the competition of architects in the design of public buildings by inviting seven architects to submit competitive designs and estimates for the Norfolk, Va., building for which there is an appropriation of \$190,000. Herebefore all the designs have been made by the government architect. After the Tarsney law was passed four years ago, Secretary Carlisle decided it was impracticable and declined to execute it.

Secretary Gage, however, has resolved to give the law a trial. The plans are to be submitted October 13. Under the law not less than five architects are to be selected and Secretary Gage decided upon seven. The names are not given out lest some of them might decline. It is the intention of the secretary also to invite architects to submit plans for the new Ellis Island immigrant station at New York, which is to cost \$800,000, and for the public building at Camden, N. J. A majority of the architects invited to compete for the plans of the Norfolk building are residents of Virginia.

A new steamboat mail service between Juneau and Dyea, Alaska, the first stretch on the overland trail to the Klondike region, was announced by the post office department Monday. It provides for the dispatch of the mails from Juneau twice a month, immediately after the arrival of the mail steamer from Seattle, and arriving in Dyea in 12 hours. The mails will leave Dyea twice a month within about 12 hours after arrival from Juneau, or in time to connect with the mail steamer at Juneau for Seattle.

Secretary Gage and Attorney General McKenna issued a joint circular today to collectors and customs officers and U. S. attorneys and marshals relative to the enforcement of the Chinese exclusion laws. In the circular Secretary Gage says:

In order more effectively to prevent the irregular admission to this country of Chinese persons claiming to be of American birth through the submission of testimony believed to be fraudulent, it has been decided to allow such persons upon their admission at the port of first arrival, to proceed to their destinations, where they may be arrested and more vigorously prosecuted than appears to be at present practicable.

Collectors of customs at ports where Chinese of alleged American birth apply for admission to this country should, after such examination as may be required to secure the identity, destination, etc., of such Chinese persons, allow them to proceed on their journey; but, in each instance, reasons should be taken to arrest them again and deliver them to the proper authorities for the institution of legal proceedings to determine their right to remain in the country. The department's attention has been called to instances where Chinese persons suspected of being irregularly in the United States, upon being interrogated, have produced certificates signed by United States commissioners, stating that the persons had appeared before him and been adjudged to be lawfully in the United States, as they were citizens.

By the act of May 9, 1893, state and federal courts are prohibited from admitting Chinese to citizenship, and the question whether children of Chinese parents born in the United States are citizens, is now pending in the supreme court. Until otherwise ordered all Chinese found in this country who are unable to produce laborers' certificates of registration or evidence of their status as bona fide merchants or laborers in transit to other countries, should be arrested by Chinese immigrant inspectors and delivered to the proper legal authorities for the determination of their right to remain in the country.

Attorney General McKenna directs the officers of his department to cooperate in carrying out these instructions to customs officials, and instructs attorneys or their assistants to appear at all hearings to represent the government's interest.
